Subject: State Historical Preservation

Todd, I am requesting your assistance in coordinating with the State Historical Preservation Officer to determine the presence or absence of cultural resources in or near the Wilcox Oil Company Superfund Site. I am currently coordinating a similar effort with the tribal groups that have expressed interest in the Site. As you are aware, we are required to identify historic and culturally significant sites that may be affected by our remediation efforts at Superfund Sites. It is important that we identify these site early in the process so that during our investigation planning, we avoid or minimize effects on historical, architectural, archaeological or culturally significant properties.

At this time, I request your assistance in coordinating with the States historic preservation program. I have included the detailed site information below that can be provided to the program to assist in their evaluation of the area. Please let me know if there is additional information you need or if you have questions.

Site Information

Name: Wilcox Oil Company (OK0001010917)

Address: West 221st Street South/Refinery Road, 0.35 mile east of U.S. Highway 66

City, County, State: Bristow, Creek County, OK, 74010

Topographic Map: Bristow Quadrangle, OK

Latitude: 35°50'26.8966" N

Longitude: 96°22'48.693" W

Thank you for your assistance.
